

Dartconnect Express Player Lineup Setups

1. Login to Dartconnect after the statistician has added email address to your league account.
 - A. In a web browser run my.dartconnect.com and login in.
 - i. If the Scoring App screen shows up you will have to logout.
 - a. If you get a screen similar to the one below, go to setup 3.
 - b. If you do not get a screen similar to the one below, close the web browser, reopen the web browser and go to my.dartconnect.com to login.
 - ii. Now you have the following screen:

2. Scroll down until you Find My Upcoming League Matches
 - A. These options will only show if your player account is assigned as Captain or Co Captain of a team.
 - B. Select "Set Lineup" red button of the match you are about to play. Which gets you this popup.

- C. Select the game you would like to add players which will give you this screen for each game.

Player Selection for Set 1

Singles - 301 SIDO - Best Of 1 Legs

Apirl Parker	+ Add to Set 1
Bessie Jackson	+ Add to Set 1
Evan Jackson	+ Add to Set 1
Herman Metcalf <i>(Captain)</i>	+ Add to Set 1
Jamie Archer	+ Add to Set 1
Lee Irwin <i>(Co-Captain)</i>	+ Add to Set 1
No Player	+ Add to Set 1

- D. If you are playing short select No Player for the open spot.
- E. For Doubles/Triples, select players in throwing order. First player you select, will go first in the doubles game.
3. After lineup is complete, you can either:
- A. Select the gray button “Share w/Team”. It will only share the lineup via an email to all your team players only and you will be allowed to change the line if changes are to be made.
 - B. If you select the red button “Submit Lineup” it will share the lineup for your team only and you cannot make changes until match begins in the Scoring App before each game starts.
 - C. Once both teams have selected “Submit Lineup” both teams will see each other’s lineups.
4. You are done.
